3 IN 1 SPOON & SCRAPER & SPATULA

The scraper is always being the core tool of the baking master. We have upgraded the product by combining the functions of stirring, scraping and tasting. The upgrade is carried out in the details. The side of the scraper is designed as three layers, which effectively improves the effect of scraping. To make the stirring scrape more even and full. The feeling of silicone material is softer and ergonomic.

HANGING SCRAPER

It adopts a full-scale curved surface design, which is more com_ fortable and easy to use. The silicone cutter head is designed to easily scrape the bottom of the bowl,and cut the food material. Comfortable grip and ergonomic design. The hanging hole design makes storage easier.

STANDING BOWL SCRAPER

It adopts food grade silicone, which is safe and non-toxic, high temperature resistant, and upgraded in the details.The scraper is designed with different curvatures. It can easily scrape whether it is a right angle baking pan or an arc bottom. The feeling of silicone material is softer and ergonomic.

SILICONE SPATULA

The design of the standing scraper is derived from the western knife combined with the western knife handle design. So that the scraper can effectively stand on the table after use. Prevent the product from being directly placed on the table and touching the dust after use.
